

## RECOMENDATION LETTER

---

Dublin, Ireland 2018

To whom it may concern,

It's my absolute pleasure to recommend **Joana Lima**.

Joana and I worked together at **Openet (2017-2018)**.

Joana is one of these people you must highly recommend. Her value in Openet was really important to the Solution Management and the UX team.

Joana as a Software Engineer manages the Front-End and the Back-End development as her as you wish. She is a machine learning!

Also, Joana has the great ability to communicate ideas inside a room and get people on board, even people who were initially on completely different pages.

Her talent and kindness, increased, with no doubt, the productivity level of the team, making sure everyone left with a smile after a long day of creating.

Please feel free to contact me at [geomar.quintero@openet.com](mailto:geomar.quintero@openet.com), should you like to discuss Joana's qualifications and experience further. I'd be happy to expand on my recommendation.

Best wishes,

**Geomar Muñoz Quintero**  
UX Engineer | UI Designer at Openet
